

GOODIE BAGS

Looking to make a statement? These eco-chic totes are green in every sense of the word. By Christine Ajudua Photographed by Davies + Starr

1 Los Angeles accessory designer **CC Skye** uses biodegradable canvas in this tote (\$250), with a hand-braided leather-and-gold strap.

2 In water-resistant, recyclable nylon, the **EnV Bags** shopper (\$8.50) holds up to 40 pounds and folds into a pocket when empty.

3 The sustainable tote from **Buji Baja by Hat Attack** (\$80) is made entirely of organic-cotton canvas.

4 This plastic-coated **Cambodian Children's Fund** bag (\$35) was handcrafted out of rice sacks by young adults training in design; proceeds benefit the CCF's vocational program.

5 **Lacoste's** nylon carryall (\$70) zips into an easy-to-store pouch when not in use.
